

1)  $(+6) + (-3) = +3$

2) What is the addition equation for the number line?

$(-4) + (+7) = +3$

3) Represent the subtraction equation with counters:

$(-7) - (+1) = -8$  (represented by 8 minus signs)

4)  $(+4) + (+12) = +16$

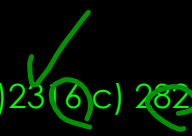

5)  $21 \div 7 = 3$

6)  $32 \times 0.5 = 16$

7)  $441 \times 2 = 882$

8) What number is divisible by 4? a) 718 b) 236 c) 282

9) What number is divisible by 6? a) 1232 b) 144 c) 734

10)  $1/3$  of 90 = 30

8      9      14

Happy  
Halloween

Red - 2, 5, 4, 4, 5, 9, 2, 2, 10

Green - 5, 4, 6, 2, 8, 7, 4, 8, 7

Your task is to find all of the Measures of Central Tendency with your ghoulish treats!

Yellow - 10, 10, 3, 6, 8, 8,

11, 0, 1

- 1 - find a group of 2 -3 of your classmates
- 2 - Make sure you ALL have a calculator AND a piece of paper
- 3 - One of your group members come and get a cup!
- 4 - Color co-ordinate your cups
- 5 - Whole class will find mean, median, mode, range and outlier(s)

Blue - 3, 2, 7, 8, 6, 1, 5,

0, 2

*Making a tower...*

*You and your group members will only have 10 pumpkins and 30 toothpicks.*

*You have 10 minutes to build a structure for the jack o' lanterns to sit upon.*

*Good Luck!*
