

# Entrepreneurs Research Paper

Part 1) Research an Entrepreneur that you picked from the list provided to you in class using credible sources (double check with another site) and include the following information:

Part 2) Research an Entrepreneur that is CANADIAN of your choice using credible sources (double check with another site) and include the following information: (Your choice has to be presented to me before you start the project and it cannot be one that has already been discussed in class)

1. Name, date of birth, and geographical location of birth.
2. Previous education of entrepreneur.
3. How they got their start. (Brief history of their life)
4. Business they started/venture created (or took over). Include important details about it (i.e., age, date when they started).
5. Challenges/Obstacles/ Failure they faced.
6. People that helped them (mentors).
7. Entrepreneurial characteristics they seem to possess that aided them in their success.
8. Why did you choose this entrepreneur? (Only for part 2)

This research paper is to be **typed** in essay format (12 point font, double spaced) and two pages in length (one per entrepreneur – min). **Include a title page and a bibliography to cite the sources you used (so...you should hand in a minimum of 4 pages).**

NOTE: If you cannot find information regarding one of the questions after trying multiple sources, mention something about it so that I know you just didn't skip that question. Example: If you cannot find any information on education (high school/college/university) - state that you researched many different sources, but were unable to find any information pertaining to his/her education.

- You should research **more** than only one source!
- Double-check that your information is **accurate**!
