

Home Learning Opportunities

Week of May 25th to May 29th

Math (minimum 20 minutes daily)

Continue to review basic facts to 18 **daily**. If you can, try to do Reflex Math 2-3 times per week. You can use Splash Learn throughout the week as well.

This week we will be looking at a new math concept that we did not cover in class, **two-digit subtraction without regrouping**.

Use the questions provided and make up some similar questions of your own to practice throughout the week.

Literacy (minimum 20 minutes daily)

See this week's literacy choice board for a variety of literacy activities. Please keep reading every day (online or books at home).

Thursday we will be doing some writing.

Social/Emotional Learning

Use the activity from this weeks STEM to create a book using one stick. Share to our Facebook page.

It's your turn to be an illustrator /author of your own 'Not a Stick' book. In nature, find mini sticks to glue into a book of paper you stapled together. What is your stick going to turn into? We would love to see where your imagination takes you. Share your story on Facebook @STEAM in ASD-N or on Twitter @STEMNorth.

Link to the book:
