

Grade 7 Weather TEST OUTLINE

Name: _____

Matching or Multiple Choice

Atmosphere

Troposphere

Temperature

Humidity

Absolute Humidity

Relative Humidity

Thermometer

Psychrometer

Barometer

Rain Gage

Anemometer

Wind Vane

Atmospheric Pressure (Air Pressure)

Wind

Trade winds

Local Winds

Clouds

Cold Front

Warm Front

Rain

Sleet

Freezing Rain

Hail Snow

Short Response

- 1) Explain the difference between weather and climate.
- 2) Know the 3 conditions that can change air pressure.
- 3) Know what type of weather is associated with low pressure.
- 4) Know what type of weather is associated with high pressure.
