

Name: _____ # _____

Where's the Best WEATHER in Canada?

You will be collecting weather data from two different cities in two different provinces to compare who has the best weather in Canada.

Step1: Collect and Examine Weather Data

A) Go to www.currentresults.com/weather/

B) Under "North America" select "More"

C) Choose New Brunswick, then under "Temperature", select January.

D) Choose i) Miramichi

E) Fill out the chart with the HIGH and LOW in Celcius (C) for that month.

F) On the left hand side of your screen select February, and fill in the data, then continue with the rest of the months.

Then repeat the above but for part 'c', choose Saskatchewan and for 'd' choose Regina.
